PROTON KITE
UNISEX

FLEXIBLE, FLYWEIGHT SHELL HARNESS

Stand out on the water. We removed the stiff core typically found in a shell harness and replaced it with tough and lightweight Surlyn® material developed by science geeks at duPont in order to retain most of the benefits of a hard shell while improving flex in places riders need it most.

GRAVITY
UNISEX

PURE PERFORMANCE

The laminated EVA inner of the Gravity Seat multi-sport harness is split into three segments to provide dynamic support while the pre-bent shape allows for the harness to completely wrap around the hip and seat area. Leg straps are uniquely angled for exceptional fit and freedom of movement.

FLY
UNISEX

WINGFOIL

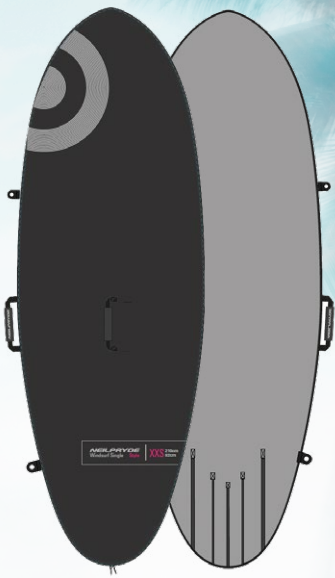

The Fly Wingfoil Harness delivers comfort, freedom and control in every session. Its movable rubber-coated hook protects your board while adapting perfectly to your stance. The Surlyn shell and soft inner padding provide strong back support and all-day comfort. A leash attachment keeps your setup clean and secure, while the metal cleat ensures reliable tension adjustment. Designed for performance and built for limitless rides.
