HIGHLIGHTS

The secret of a fast board lies in the narrow outline, pointy nose, great gliding and stiffness. These principles were applied to the SportstAir to make it the fastest i-SUP available. Recently the SportstAir line was totally renewed and delivers even better performance. Its shape - with an outline developed by Werner Gnigler - has a thinner nose to allow better gliding after each stroke. With this board, it is finally possible to reach high-performance and pack it into a compact bag!

HIGHLIGHTS

Same proven outline from the AllroundAir line scaled down to the proper size for the kids. The width of the kids shoulders require a narrower board so that they can maintain a straight line paddling. With a very wide board they will inevitably paddle too wide around and consequently have to change paddle side too often. Comes with a bungee cord in the front.

HIGHLIGHTS

Originated from a popular size from our AllroundAir ranges, the Venus line comes in a beautiful and exciting color combination. These boards are perfect for cruising, touring, fitness and yoga. They provide all that is needed for a great time on the water. More importantly, the boards have a thickness of 5" for a lower standing position and lighter weight. The Venus products are available in LE technology for the lightest weight.

HIGHLIGHTS

Our team board appears again as huge as usual! With 17' of length and 65" of width, this board was redesigned with a 6" Triple Layer Composite Drop Stitch to decrease its weight. Call your friends and family, pets are also welcome! Fun times wait ahead with this gentle beast. Windsurf tandem blasting, teaching, paddling river tours, or just using it as your own private island!

HIGHLIGHTS

The JP-Australia Surf range is designed for the "no-compromise", top to bottom performance in the proper surf conditions for riders of all sizes. The whole Surf line has unique features: single to double concave flowing into a V tail, pulled in nose and tail, progressive rocker line and thin rails. Its pure performance-oriented layup makes the Surf the best choice for the perfectionist wave riders.

HIGHLIGHTS

The combination of a surfboard outline, subtly curved rocker line and generous volume thinned out on the rails through a step deck is a winning concept that fuses glide and stability with great surfing characteristics. The Fusion has a really good glide and is happy in flat water paddling, but they love the waves.

HIGHLIGHTS

The GT came to life after we developed the Allwater Race boards. When we realized how stable, fast and easy to paddle this shape was we immediately knew that we found the ideal formula for a performance-oriented tourer. The main strong points of this magic shape are; high volume in the nose and the tail area for lift and stability in all conditions, wide square tail and the concave bottom for ultimate in stability and water line efficiency.

HIGHLIGHTS

100% Pre-preg Carbon CNC shaped high density PVC core blade with a 60% Pre-preg Carbon shaft is a great performance paddle. We kept the "swing weight" low by using the full carbon blade. The 60% Pre-preg Carbon shaft is a better option for those looking for a slightly forgiving feel at a really low weight predominantly in waves or touring. The concave V blades feature a generous ABS edge for the protection of your board, offered in three sizes: 83 in2, 90 in2 and the newest 77 in2. The handles are made of 100% Carbon.
