Joan DURU
Pro Surfer & SIC Maui Ambassador

At SIC Maui, our journey has been guided by a deep sense of purpose. We believe in the power of watersports to inspire, transform, and connect individuals. Our mission has always been to empower athletes and enthusiasts to embrace the limitless possibilities of the ocean.

Our passion lies not merely in crafting quality performance paddleboards, surfboards, and foilboards; it goes beyond that. Our “why” revolves around ensuring that each product we create becomes integral to your journey, enabling you to conquer your goals, chase your dreams, and embark on thrilling adventures.

WINGFOIL

Nothing beats the thrill of harnessing the power of the wind to lift off and glide silently above the water's surface. Whether you're new to the sport or a seasoned pro, we have everything you need to elevate your foiling experience.

Our collection features cutting-edge foils and inflatable wings crafted from high-performance materials, ensuring optimal lift and stability on the water. Paired with our innovative foilboards, which blend lightweight construction with strategic shaping for enhanced control and agility. We are confident that you will find the perfect setup to conquer waves and harness the wind's power.

UNLEASH PREDATOR POWER AND SPEED

RAPTOR WING

RAPTOR WING V3

PERFORMANCE PROFILE

Unleash predator power with the RAPTOR WING V3. Our team of experts have engineered a wing that is designed to meet the needs of even the most demanding riders with exceptional features and unparalleled performance. The lower aspect ratio shape, combined with a segmented leading edge, provides better wing tip control while turning and increased stability while free-flying and wave riding. The center strut design with mini booms offers superior comfort and power management for pumping efficiency. Whether you're a progressing or an experienced rider, the RAPTOR WING V3 will help you take your wing foiling to new heights.

KEY FEATURES

- LOWER ASPECT SHAPE WITH HIGHER SEGMENTED LEADING EDGE
Reduced wingspan for better wing tip control, improved turning, and stable free flying while maintaining upwind performance.
- THICKER STRUT DESIGN
For better pumping efficiency, power management, and ergonomic comfort.
- IMPROVED 3DF
Improved breaking strength, tear resistance, UV protection, elongation, and overall durability.
- IMPROVED ECOTEX LEADING EDGE
Ultra-rigid, non-stretch leading edge material for better airflow and flight stability. Prevents seam bulging on the leading edge.
- STIFFER DURABLE FABRICS WITH NEW PANELING ALIGNMENTS
Better tensioning to help reduce fluttering and improve wing longevity.
- MINI BOOMS
For comfort, direct control, and superior ergonomics.
- MEDIUM DIHEDRAL
Provides a perfect blend of power and speed with good stability.
- WINDOWS
For better visibility/view for highspeed flying and all-round safety.
- HALF SIZES
Providing the right size wing for every riding condition and skill level.

SIZES

- 2.5 m² • 108960

THE DOWNWIND FOILBOARD SPECIALIST

NEW KŪNALU

KŪNALU 7'6 105L - 7'11 115L - 8'4 130L (SFL)

SUP FOIL / WING FOIL
SFX

NEW

PERFORMANCE PROFILE

The KŪNALU downwind foilboard specialist, is our most performance-driven foil board yet. The KŪNALU name has a history with SIC, dating back to 2005 when shaper Mark Raaphorst introduced his first hollow paddleboard, the KŪNALU. Now, it is aptly reborn into the modern era of downwind SUP foiling. "NALU" means wave, and "KŪ" has many meanings, one being to stand or rise up, which now appropriately signifies rising above the water.

The KŪNALU offers exceptional stability and effortless porpoising before pop-up, delivering a fluid and responsive ride. The forward foil track position results in the feel and agility of a shorter board but keeps the glide of a longer board. This remarkable performance is paired with a premium carbon-reveal, making the KŪNALU a visual showstopper. Crafted with our new Super Fly Lite (SFL) technology, the KŪNALU boasts a custom Carbon PVC construction with vertical carbon PVC foil tracks and blocks for unparalleled strength and durability.

KEY FEATURES

- **FLAT SECTION BOTTOM**
Paddle stability off-foil and low drag when skipping across the surface on-foil
- **TAIL WEDGE**
The board can naturally rock fore & aft without tail drag prior to pop-up
- **WIDE POINT FORWARD CENTER**
Stable during paddling prior to take-off
- **RAIL APEX HIGH UP TOWARDS DECK**
Provides secondary side-to-side stability & rail clearance while banking hard
- **FORWARD FOIL TRACK PLACEMENT**
A Shorter board feel than the actual board length
- **VOLUME TOWARD THE TAIL WITH THINNED-OUT NOSE**
Tail floatation where needed and decreasing swing rate in the front
- **SUPER FLY LITE (SFL) CONSTRUCTION**
Carbon PVC sandwich deck construction and rigid true hull fin box cassette provide direct foil feedback

SIZES

- 7'6" x 19.0" - 105L • 109902
- 7'11" x 20.0" - 115L • 109903
- 8'4" x 22.0" - 130L • 109904

Choose your board size based on weight and experience level. Board volume guideline for novices: Add 30 liters to your weight in Kg. including wet suit.

WING FOIL BOARD
SFX

NEW

PERFORMANCE PROFILE

The KA'A & KA'A Pro boards are your all-in-one daily driver. These versatile mid-length boards are ideal for advanced riders SUP foiling, light-wind, downwind and surf wing, and prone surf foiling. Their longer, narrower shape provides less drag and better hull speed for early lift-off which is essential for performance and racing. The pulled-in tail outline enhances maneuverability and reduces touchdowns during sharp carving transitions.

On KA'A boards, longer foil tracks offer superior pitch control, giving you the feel of a shorter board while maintaining stability. An added handle assists in transporting gear to the water.

KEY FEATURES

- MID-LENGTH LONGER AND NARROWER SHAPE
Provides lower drag, increased hull speed, and better light-wind performance for early lift-off
- MORE EFFECTIVE WATERLINE
Provides increased speed for early foil engagement, especially when using high aspect ratio front wings
- PULLED IN TAIL OUTLINE
Reduces touchdowns during carving transitions
- HANDLE AND LONGER FOIL TRACKS ADDED ON THE 6.0, 6.5, AND 7.0 SIZES
Enhanced fore and aft pitch control, along with more board behind the tracks, gives the rider a shorter board feel.
Handle added for easy transport due to the board's length
- NO HANDLE ON KA'A PRO SIZES
For riders seeking optimal performance, reduce weight and drag
- SUPER FLY X (SFX) CONSTRUCTION
For lightweight, durability and performance

SIZES

KA'A PRO

- 5'3" x 18.0" - 50L • 112910
- 5'5" x 19.0" - 60L • 112911
- 5'8" x 20.0" - 70L • 112912

KA'A

- 6'0" x 22.0" - 80L • 112913
- 6'5" x 23.0" - 90L • 112914
- 7'0" x 25.0" - 110L • 112915

PERFORMANCE PROFILE

The Raptor Pro series is a high-performance wing foiling shape crafted for intermediate to advanced riders aiming to achieve speed, catch air, and surf aggressively. Constructed with durable, lightweight SFX material and featuring new racecar-inspired graphics, this board could be your ticket to soar.

The Raptor 4.11 is the ultimate foilboard for high-performance wing foiling within our revolutionary Raptor Pro shapes. Designed to maximize efficiency while minimizing board size, this board is tailored for advance riders pursuing freestyle, surf foiling, and speed riding experience.

The 5'0" and 5'4" Raptor Pro Wing shapes were designed to maximize efficiency while minimizing board size and tailored to enhance the speed-riding experience. Featuring a compact, rounded nose and contoured deck, these boards provide easy in-flight maneuverability. The strategic placement of narrow foot straps and volume distribution aids dynamic turning, while the rear foil positioning enhances control and performance.

KEY FEATURES

- PRO SHAPES
High Performance wing foiling
- COMPACT DESIGN ROUNDED NOSE
For easy maneuverability
- MULTIPLE FOOT STRAP PLACEMENT OPTIONS
Suit any style of riding
- VOLUME DISTRIBUTION
For stability and dynamic turning
- SUPER FLY X (SFX) CONSTRUCTION
For Lightweight, durability, and performance

SIZE

- 4'11" x 22.0" - 60L (SFX) • 109637
- 5'0" x 25.0" - 80L (SFX) • 109633
- 5'4" x 26.0" - 95L (SFX) • 109635

RAPTOR 5'8 110L - 5'11 120L (SFX)

WING FOIL BOARD
SFX

PERFORMANCE PROFILE

The larger, higher-volume boards in the Raptor series are ideal for beginners and intermediate wing foilers. They offer excellent stability off-foil, making paddling and wing handling easier for learners. The bottom chine ensures smooth gliding and easy water release, while the rear foil placement aids in takeoff. The 5.8 and 5.11 models are also great for larger riders requiring more volume without sacrificing performance.

Featuring Super Fly X (SFX) construction, these boards deliver durable, lightweight performance. Now available in the new racecar-inspired graphics similar to the Raptor Pro series.

KEY FEATURES

- FULL NOSE OUTLINE AND STRAIGHT TAIL ROCKER
Providing stability while paddling and smooth lift-off
- ADDED BOTTOM CHINE
For ease of glide and release from the water to get on foil
- REAR FOIL PLACEMENT AND VOLUME DISTRIBUTION
For easy launching
- NARROWER FOOT STRAP PLACEMENT
For wing foiling and more dynamic turning
- DOUBLE SLOTTED FIN BOX TRACKS FOR PLATE MOUNT SYSTEM
For secure mounting of foil
- DIAMOND-GROOVE TEXTURED EVA DECK PAD
For traction and grip Kicktail pad Assist with turning
- SUPER FLY X (SFX) CONSTRUCTION
For lightweight, durability, and performance

SIZES

- 5'8" x 28.0" - 110L (SFX) • 109636
- 5'11" x 30.0" - 120L (SFX) • 109634

RAPTOR LAUNCH 5'8 110L (AT)

WING FOIL BOARD
ACE-TEC

PERFORMANCE PROFILE

RAPTOR LAUNCH is one of the most exciting editions to our wing foil lineup, opening the doors for beginner and intermediate wing foilers who want a rigid board at an affordable price. Featuring durable, lightweight ACE-TEC seamless construction, this board is built to last. It's the same shape as our Raptor series and has all the great performance features.

KEY FEATURES

- FULL NOSE OUTLINE AND STRAIGHT TAIL ROCKER
Providing stability while paddling and touchdowns
- BOTTOM CHINE
For smooth lift-off and better glide
- REAR FOIL PLACEMENT AND VOLUME DISTRIBUTION
For easy launching
- NARROWER FOOT STRAP PLACEMENT
For wing foiling and more dynamic turning
- DOUBLE SLOTTED FIN BOX TRACKS FOR PLATE MOUNT SYSTEM
For secure mounting of foil
- DIAMOND-GROOVE AND KICKTAIL PAD
For traction, grip, and assistance with turning
- ACE-TEC (AT) SEAMLESS CONSTRUCTION
For affordable, lightweight, durability with a new no seam construction for comfort

SIZE

- 5'8" x 28.0" - 110L (AT) • 108947

RAPTOR AIR 5'8 120L - 5'11 130L (FST)

WING FOIL BOARD
INFLATABLE

PERFORMANCE PROFILE

The RAPTOR AIR wing foil boards combine specialized Raptor performance and design with the compact storage and transportation convenience of an inflatable. Don't let the word inflatable fool you. The RAPTOR AIR was created with performance in mind for the avid wing foiler ready to travel and explore or the beginner looking for something softer and less intimidating under their feet.

KEY FEATURES

- CARBON FOIL MOUNT WITH LIGHTWEIGHT MOLDED FOAM CORE
To ensure responsiveness and strong connection
- QUICK RELEASE EDGE AND REAR FOIL PLACEMENT
For easy launching
- NARROW FOOT STRAP PLACEMENT
For wing foiling and more dynamic turning
- CONVENIENT TRAVEL BACKPACK
To take your wing foiling adventures anywhere
- DIAMOND-GROOVE TEXTURED EVA DECK PAD
For traction and grip
- FST FUSION CONSTRUCTION
For maximum stiffness

SIZES

- 5'8" x 28.0" - 120L (AIR) • 108256
- 5'11" x 30.0" - 130L (AIR) • 108257

SLASH FOILS

PERFORMANCE PROFILE

Flip your ride! The SLASH range is all about maximum glide, high-speed, and hard carving for those who want to push Wing Foiling to the maximum. Multiple versatility for maximum customization according to riding styles. The innovative flipping central fuselage allows you to trim your foil performance simply by flipping the orientation of the fuselage.

SLASH Foil is designed and configured with the finest materials available. The base and mast are constructed with military-grade prepreg carbon and the flip fuselage with alloy. All front and rear wings, T-Bar, and fuselage are interchangeable, allowing optimum equipment fine-tuning to accommodate your weight, riding style, and riding conditions.

KEY FEATURES

- **HIGH ASPECT RATIO FRONT WING**
Better glide and control, perfect for advanced foilers
- **FLIP FUSELAGE: TWO IN ONE**
Flip the asymmetrical fuselage facing the PUMP ARROW forward for pump riding style and control, facing the STEERING WHEEL forward for maneuverability and aggressive turning.
- **STAB TRIMMING +/- 1°**
Favoring lift vs. speed
- **DOUBLE TRACK BASE MOUNTING PLATE**
Giving you maximum adjustability fore and aft and the ability to shim your foil
- **MARINE-GRADE HARDWARE - TORX 8 MM**
Strong and corrosion-resistant
- **UD / BIAx PREPREG CARBON CONSTRUCTION**
For lightweight stiffness and durability

FOILS COMPONENTS FRONT WINGS

SLASH

The new high aspect ratio 600 front wing ensures fast acceleration, maximum control at higher speeds, optimized glide for high-speed pumping, and improved upwind performance. Without winglets, it offers a responsive feel and enhanced maneuverability. Its medium to flat anhedral design increases stability, providing better control at higher speeds, while the thin profile minimizes drag, allowing for higher maximum speed.

Name/Size	Span	Cord	Aspect Ratio	Ref.
FW 600 NEW	74.0cm	9.6cm	9.1	112858
FW 750	78.4cm	11.3cm	8.2	109613
FW 900	87.0cm	15.0cm	8.5	108265
FW 1200	97.0cm	17.2cm	7.9	108266
FW 1700	105.0cm	22.5cm	6.7	108267

SLASH MASTS

SLASH carbon masts are great for those who have foiling experience. A longer mast allows for deeper carving and less pumping. It's also better for downwinding, keeping you above chop. The SLASH HM carbon masts, with improved stiffness and torsion, is a must-have for anyone entering the race scene seeking true performance output.

Name/Size	Technology	Ref.
31" / 80cm	Carbon	108934
35" / 90cm	Carbon	108269
HM 31" / 80cm NEW	Carbon High Modulus	112856
HM 35" / 90cm NEW	Carbon High Modulus	112857

SLASH HAR

Explore the world of downwind SUP foil, wing, and light wind foiling on the NEW Slash HAR 900 & 1100 front wings in carbon construction. The high aspect ratio for exceptional glide, high-speed capabilities, and enhanced pumping ability.

Name/Size	Span	Cord	Aspect Ratio	Ref.
HAR FW 900 NEW	93.0cm	12.1cm	9.6	112859
HAR FW 1100 NEW	103.0cm	13.4cm	9.7	109901

SLASH REAR WINGS

The new SLASH 185 rear wing has been designed to be combined with the 600 & 750 front wings, and HAR front wings for more speed while maintaining control. The SLASH 185 is also compatible with a larger front wing (HAR 900, HAR 1100, 900, 1200, and 1700 slash front wing) for riders who want to carve hard. The Slash 250 is ideal for the SLASH HAR 1100, 1200 and 1700.

We've also taken some time to make the necessary naming updates with our stabilizers. Our stabilizers were previously named by span rather than surface area, which is more consistent with the market. The new item numbers reflect the name change only.

Name/Size	Span	Cord	Aspect Ratio	Ref.
STAB 185	38.0cm	7.1cm	7.7	109614
STAB 250 NEW	40.0cm	8.5cm	6.7	112869

PERFORMANCE PROFILE

The FLITE setup is perfect for beginners or anyone seeking a more affordable option without compromising performance. The FLITE 1500 and 2000 front wings provide excellent lift and easy progression, while the FLITE 1200 front wings provide more maneuverability. Notably, the FLITE 1200 is a team favorite for surfing.

The FLITE foil is manufactured with the finest materials on the market. The base, mast, and fuselage are alloyed, and the front and rear wings are wrapped in carbon. The precision-cut alloy has a slotted open end for rapid breakdown. It is also extremely durable over time. All the front and rear wings and T-Bar are interchangeable, allowing optimal equipment fine-tuning to accommodate your weight riding style and riding conditions. The SLASH front and rear wings are also compatible with the FLITE system.

KEY FEATURES

- **LOW ASPECT RATIO FRONT WING**
Better low-end light wind performance, stable, and perfect for discovering the sport. Plug-and-Play: one fuselage, one front wing, one mast, and one stabilizer
- **MAST, FUSELAGE, PLATE, CONNECTOR**
Mast 75 cm - Construction: Aluminum
- **FRONT WING & STABILIZER**
Construction: Carbon wrap
- **MARINE-GRADE HARDWARE - TORX 8 MM**
Strong and corrosion-resistant

ALL-WATER TURBOCHARGED PERFORMANCE

RST SERIES

RST (SF)

RACE
ALL WATER
DUGOUT

PERFORMANCE PROFILE

The RST dugout all-water raceboard, a remarkable evolution that redefines SIC Maui's all-water race category. Inspired by the race-winning rocker of the RS series, known for its exceptional glide and maneuverability. The RST combines it with the unmatched rough water stability of the dugout of the Atlantis with venturi drain and with improved rough water performance.

KEY FEATURES

- RS BORROWED ROCKER LINE WITH NOSE KICK
Proven flat-water speed and glide as well as maneuverability in the bumps
- HIGH BOW VOLUME AND RAISED SPINE
Increase ability to shed water going upwind or during drafting.
- NARROWED OUTLINE WITH EXTENDED BOW ON BOTTOM NOSE
Less drag in flat conditions
- VENTURI DRAIN
Swift water evacuation to keep the board performing at its best
- ROUNDED RAILS IN FRONT AND REAR THIRD
Higher top end speed in the flats and more control riding the bumps and catching a swell
- LOWERED, FLATTENED, AND BROADENED DUGOUT
Increased stability for rough water handling and maximized standing area
- V-BOTTOM AND DECREASED TAIL
Improved water release, better turns, and enhanced surf agility
- SUPER FLY (SF) CONSTRUCTION
Lightweight molded Carbon sandwich construction

SIZES

- 14'0" x 21.0" LV - 240L (SF) • 109605 Preseason
- 14'0" x 21.0" - 260L (SF) • 109606 Preseason

THE WINNING FLATWATER RACING BOARD

XRS V2 SERIES

XRS V2 (SF)

UPDATED LAST YEAR

RACE
FLAT WATER
DUGOUT

PERFORMANCE PROFILE

The XRS V2 is our updated flatwater raceboard with a dugout cockpit constructed with a lightweight Super Fly molded Carbon sandwich. Its enhanced performance features and reduced volume make the XRS V2 more agile, responsive, and faster in the flats.

Flat water purpose-driven, the updated XRS V2 provides an improved length-to-width-aspect ratio, delivering a more stable platform with better maneuverability. The cockpit has been lowered and widened to enhance stability and standing area. The new narrowed nose and tail, combined with overall volume reduction, greatly increase its responsiveness and agility, allowing paddlers to achieve unrivaled acceleration. The rear tapered freeboard with a backward angle deck optimizes drainage through the open transom.

KEY FEATURES

- **DUGOUT COCKPIT WITH VERTICAL WALLS**
Increased standing width for improved racer stability and a strong, balanced stance
- **LOWERED COCKPIT FLOOR**
Enhanced stability provides a solid foundation for racers to maintain control and power confidently
- **SHARPENED NOSE**
Increase bow volume where it is most needed, and the nose breaks up incoming "blue" water while drafting and during upwind legs
- **REDUCED VOLUME**
Shedding excess weight, the XRS becomes even more agile and responsive, allowing racers to maneuver precisely
- **NARROWED OUTLINE AND TAIL**
Increased agility and maneuverability, enabling swift and precise turns to outmaneuver opponents
- **TAPERED REAR FREEBOARD**
Optimized water drainage through the transom and a smooth and efficient release of water during buoy turns
- **SUPER FLY (SF) CONSTRUCTION**
Lightweight molded Carbon sandwich construction

SIZES

- 14'0" x 20.0" - 255L (SF) • 109645
- 14'0" x 22.0" - 280L (SF) • 109646
- 14'0" x 24.0" - 305L (SF) • 109647

RST AIR (FLW)

AIR
ALL WATER
PERFORMANCE FITNESS

PERFORMANCE PROFILE

The RST Air series follows the exciting outline of the RST and is produced in our Fusion Lite Welded technology. This light-weight technology comes with durable welded seams providing a lasting airtight seal without the risk of glue weakening and adding stiffness. Now also available in narrower race widths for juniors and athletes.

KEY FEATURES

- WELDED SEAMS
Providing a lasting airtight seal without the risk of glue weakening and adding stiffness
- NARROW NOSE
For better glide
- NARROWER RACE WIDTHS
For racers who want to travel
- JUNIOR SIZES AVAILABLE
For young racer who are required to enter inflatable categories
- FUSION LITE WELDED (FLW) CONSTRUCTION
Lighter technology

CLASSIC RS (DF)

TOURING
FLAT WATER / ALL WATER
RECESSED DECK

PERFORMANCE PROFILE

The RS raceboard in Dragon Fly construction offers the same performance features of the original RS shape in a durable DF construction at an affordable price. The RS in DF also opens the award-winning shape to the performance touring community—those who want more performance than Okeanos but not high-end raceboard prices. The RS is delivered in a fresh graphics to compliment the rest of the race and touring line up.

KEY FEATURES

- FLAT NOSE FOR GLIDE AND DIRECTIONAL CONTROL
Gives excellent primary stability from the bottom. The straighter nose rocker enhances glide in the flats and directional control.
- SQUARED OFF TAIL SHAPED FOR GLIDE
The squared-off tail increases the surface area, helping maintain an even plane through the water while paddling at a high cadence, ultimately the fastest.
- RECESSED DECK
Provides a slightly lower center of gravity without impeding rail-to-rail foot control.
- STEP CHANNEL BOTTOM
For directional tracking
- DRAGON FLY (DF) CONSTRUCTION
Durable performance construction at an affordable price

SIZES

- 14'0" x 24.5" - 297L (DF) • 109642
- 14'0" x 26.0" - 315L (DF) • 109643
- 14'0" x 28.0" - 339L (DF) • 109644

BULLET (DF)

TOURING
DOWNWIND
PERFORMANCE FITNESS

PERFORMANCE PROFILE

The BULLET is one of the most versatile designs in the SIC paddleboarding range. In addition to being a tremendous downwind board, it's a fitness and touring board that can drop in and surf ocean swell as well as beach and point breaks. It has won the hearts and minds of paddlers worldwide that have come to appreciate, trust, and love the BULLET'S performance.

KEY FEATURES

- PLANING BOTTOM
For stability and surfing bumps and waves
- CHISEL TAIL
To drop the tail in bumps and control while surfing
- FULL RAILS
For stability
- CROSS-CUT EVA DECK PAD
For traction and grip
- DRAGON FLY (DF) CONSTRUCTION
Durable performance construction at an affordable price

OKEANOS EXP AIR (FST)

**AIR
CRUISING
FITNESS**

PERFORMANCE PROFILE

The Okeanos Expedition Air with drybag style backpack allows you to plan one-way adventures or use your paddleboard as a commuting option. The unique drybag-style backpack lets you transport your board from your home to your launch location and store personal items in the drybag while paddling to your next destination. It's the perfect commuter or adventure-style paddleboard that can take you from water to land adventures.

KEY FEATURES

- **DISPLACEMENT TOURING SHAPE WITH GENEROUS WIDTH**
Adding stability and load capacity
- **DRYBAG BACKPACK**
To take gear with you
- **BUNGEE TIE-DOWNS ON FORE AND AFT DECK**
Giving endless gear-hauling option
- **2+1 FIN SETUP**
Allowing removal of center fin and shallow paddling with side fins only
- **ACTION CAMERA MOUNT ON THE NOSE**
To capture your adventures on the water
- **FUSION SKIN (FST) TECHNOLOGY**
Stiffest drop stitch material

SIZES

MOTHERSHIP AIR (SSW)

**AIR
GROUP FUN
RENTAL / CLUB**

PERFORMANCE PROFILE

Stand up paddleboarding reached a new level of fun with this super-sized stand-up paddle board! The new version of the mothership features the new Support Stringer Welded Technology (SSW) for ultra-resistant seams and maximum durability. Grab your kids or friends and hit the water. Perfect for group harbor cruising. The Mothership is also a great money maker for schools and rental shops.

KEY FEATURES

- **6-8 ADULT CAPACITY**
Hold up to 1700 lbs
- **30 NEOPRENE CARRY HANDLE**
For easy transport
- **HEAVY-DUTY TOW D-RING (LOCATED IN THE NOSE ON THE BOTTOM)**
For towing when needed
- **ACTION CAMERA MOUNT ON THE NOSE**
To capture your adventures on the water
- **SUPPORT STRINGER WELDED (SSW) TECHNOLOGY**
Ultra-resistant seams and maximum durability with an tight seal

SIZE

- 17'0" x 59.0" - 1200L MOTHERSHIP (SSW) • 112865

MANGROVE (DF)

ALL AROUND
CRUISING / FISHING
RECREATIONAL FITNESS

PERFORMANCE PROFILE

The MANGROVE fits a wide range of paddlers looking for a stable platform for various uses. Its flat bottom and full rails provide this stability making it perfect for fishing, yoga, touring, and paddling with kids or pups. There are plenty of bungee tie-down options on the deck for gear, a cooler or fishing kit with a rod holder.

KEY FEATURES

- **DISPLACEMENT NOSE**
Providing forgiveness when paddling in chop
- **GENEROUS WIDTH AND VOLUME IN THE NOSE AND TAIL**
For greater rail-to-rail stability
- **2 FCS2 FIN BOXES**
For removal of the center fin to accommodate shallow draft paddling (fins not included)
- **BUNGEE TIE-DOWNS ON THE NOSE AND TAIL**
Allows for maximum gear-hauling and versatile setup
- **DRAGON FLY (DF) CONSTRUCTION**
Durable performance construction at an affordable price

SIZES

- 10'6" x 32.0" - 250L (DF) • 108230

SABER (DF)

SUP SURF
RECREATIONAL SURF
CRUISING / FITNESS

PERFORMANCE PROFILE

The SABER is a great recreational cruiser that can surf without performance being compromised. Narrow width and tail combined with classic rocker, enhances gliding speed whether cruising or riding waves. The SABER is a great place to start if you think cruising and surfing are in your future.

KEY FEATURES

- **FULL NOSE**
To get into mushy waves or for longboard riding style and feel
- **BEVELED RAILS**
For more bite on the wave and quicker turning
- **FOAM FLOW DISTRIBUTION**
Giving volume where you need, tapering to the tail for better maneuverability
- **DRAGON FLY (DF) CONSTRUCTION**
Durable performance construction at an affordable price

SIZES

- 10'6" x 30.0" - 155L (DF) • 108910

PISTOL WHIP (HF)

PERFORMANCE
Surf

PERFORMANCE PROFILE

The Pistol Whip surfboard offers exceptional speed and effortless section-to-section transitions with its wider front hip and stinger tail design. The swallow tail ensures precise and tight turns, resembling a lower-volume board. The high-performance bottom contours blend seamlessly through the smooth three-stage rocker, enhancing performance, liveliness, and control with surprising ease.

The Pistol Whip has reinforced fin box construction for a durable, watertight connection in a quad, thruster, or twin-fin setup. It fits appropriately in the performance range with its EPS Core, glass epoxy construction, wood stringer, and graphics with technical highlight rail color.

KEY FEATURES

- HIGH-PERFORMANCE BOTTOM AND THREE-STAGE ROCKER
For enhancing performance, liveliness, and control with surprising ease
- BROADER HIP IN FRONT OF STINGER
Carves effortlessly and links wave sections
- SWALLOWTAIL DESIGN
For quick pivot with maximum hold
- REINFORCED FIN BOX CONSTRUCTION
For a durable, watertight connection in a quad, thruster, or twin-fin setup
- LEASH PLUG
Connect leash for safety
- HYPER FLY (HF) CONSTRUCTION
EPS Core, glass epoxy construction with wood stringer

SIZES

- 6'10" x 22.00" - 53L (HF) • 109653

PICK POCKET (HF)

PERFORMANCE
Surf

PERFORMANCE PROFILE

The Pick Pocket is a Malibu-style shape that maintains speed when paddling out into the lineup and is quick to catch waves where other boards struggle. We called it the Pick Pocket because you will be picking off waves and dropping into the pocket before anyone.

The subtle concave in the nose promotes earlier planning. This generous nose shape carries down to the mid-section of the board, and the flatter bottom in the mid-section provides stability in the standing area and generates more speed, whether you are on mushier waves or closeout sets. The rounded pin makes the board loose, maneuverable, and very manageable on any size wave.

The Pick Pocket fits appropriately in the performance range with its EPS Core, glass epoxy construction, wood stringer and graphics with technical highlight rail color.

KEY FEATURES

- WIDER FORWARD OUTLINE
Maintains momentum smoothly between paddle strokes to catch more waves
- SLIGHT NOSE CONCAVE AND FLATTER BOTTOM UNDER THE STANDING AREA
Provide glide and stability
- INCREASED TAIL ROCKER
Make the board loose and maneuverable
- REINFORCED FIN BOX CONSTRUCTION
For a durable, watertight connection in a quad, thruster, or twin-fin setup
- LEASH PLUG
Connect a leash for safety
- HYPER FLY (HF) CONSTRUCTION
EPS Core, glass epoxy construction with wood stringer

SIZES

- 7'0" x 22.00" - 49L (HF) • 109654
- 7'4" x 22.50" - 57L (HF) • 109655
- 7'10" x 23.00" - 63L (HF) • 109656

SWINDLER (HF)

PERFORMANCE
Surf

SMUGGLER (HF)

PERFORMANCE
Surf

PERFORMANCE PROFILE

The SIC Swindler model delivers performance with soul. The tapered foil of the nose and tail, combined with the low, thin rails, provides progressive performance and maximum maneuverability. A surprisingly good tube-riding board, the Swindler's slightly pulled-in shoulders and accelerated tail rocker compliment a smooth, rounded pintail.

The EPS Core, glass epoxy construction with wood stringer gives the Swindler a more traditional longboard feel and weight and classic style graphics with a solid color bottom and rail with contrasting deck. The Swindler is designed to be ridden primarily with a 2+1 fin setup, but it can also be ridden as a single fin.

KEY FEATURES

- TAPERED FOIL ON NOSE AND TAIL WITH LOW RAILS
Provides progressive performance and maximum maneuverability
- SLIGHTLY PULLED-IN SHOULDERS AND ACCELERATED TAIL ROCKER WITH ROUNDED PIN TAIL
Provide a smooth wave riding
- REINFORCED FIN BOX CONSTRUCTION
For a durable, watertight connection designed to be ridden primarily with a 2+1 fin setup or single fin
- LEASH PLUG
Connect leash for safety
- HYPER FLY (HF) CONSTRUCTION
EPS Core, glass epoxy construction with wood stringer

SIZES

- 8'6" x 22.50" - 60L (HF) • 109657
- 9'0" x 22.75" - 70L (HF) • 109658

PERFORMANCE PROFILE

An authentic traditional longboard shape, the SIC SMUGGLER model delivers timeless style, glide, flow, and fun. Subtle nose concave, 60/40 rails, continuous tail rocker, and a single fin make the SMUGGLER a nose riding dream. Precise yet smooth curves make these boards as beautiful as they are functional. The EPS Core, glass epoxy construction with double wood stringer gives the Swindler a more traditional longboard feel with classic style two-toned graphics.

KEY FEATURES

- AUTHENTIC TRADITIONAL LONGBOARD SHAPE
Delivering a traditional longboard style experience
- 60/40 RAILS AND CONTINUOUS TAIL ROCKER, AND SINGLE FIN
Make nose riding a dream
- SINGLE FIN BOX
For traditional longboard setup
- LEASH PLUG
Connect leash for safety
- HYPER FLY (HF) CONSTRUCTION
EPS Core, glass epoxy construction with wood stringer

SIZES

- 9'4" x 22.75" - 79L (HF) • 109659
- 9'8" x 23.00" - 89L (HF) • 109660

DRIFTER (AT)

**DURABLE
PERFORMANCE**

PERFORMANCE PROFILE

The DRIFTER series sets the pace with a new recreational category of stable and user-friendly boards that are fun for all skill levels. Tip to tail wood graphic with Hawaiian influenced tribal bands has brought SIC Maui back to a timeless classic look inspired by the islands.

KEY FEATURES

- USER-FRIENDLY SHAPE
Stable board for all skill levels
- LIGHTWEIGHT, WATERTIGHT EPS CORE
Core won't absorb water with dings and dents
- DIGITALLY DIRECT PRINTED
Long-lasting design
- 3 STELLAR THRUSTER FINS
100% recyclable and made with recycled fishing nets
- ACE-TEC (AT) CONSTRUCTION
Durable and responsive performance

SIZES

- 6'8" x 23.10" - 48L (AT) • 108956
- 7'4" x 22.80" - 59L (AT) • 108957
- 7'10" x 23.50" - 70L (AT) • 108958

PHANTOM (ST)

**SOFT BOARD
SKIN-TEC**

PERFORMANCE PROFILE

The Phantom all-around shape offers exceptional glide and effortless take-off. A great choice for beginners or intermediates and advanced riders looking for fun beater board to rip on. The new Skin-Tec construction technology has enabled us to create a lightweight yet exceptionally durable board in the PHANTOM. The high-density cellular foams used in its construction are molded in France with a zero-waste manufacturing process, and the board is fully recyclable to boot.

The brushed EVA foam deck pad offers stability and a strong grip. No more need for wax. Available in 3 sizes to accommodate a range of riders.

KEY FEATURES

- DOUBLE-STINGERS
Integral factory-finished wooden stringers inside the hybrid foam slab. Gives extra rigidity while retaining flex
- HIGH-QUALITY BRUSHED EVA FOAM DECK-PAD
No more wax, maximum grip, 3mm thick
- FIN BOXES
3 FCS fin boxes
- STELLAR FINS
Flexible fins manufactured in France, eco designed, raw material derived from recycled fishing nets. They are fully recyclable.
- TEXTURED SURFACE
Unrivaled feel and finish
- INTEGRAL CARRY HANDLE
- SKIN-TEC (ST) CONSTRUCTION RECYCLABLE
High-density cellular foam. Durable, lightweight and water-resistant

CLASSICS (AT)

**DURABLE
PERFORMANCE**

PERFORMANCE PROFILE

The CLASSICS series of ACE-TEC thermo-form surfboards are just that "classics." They have proven over the years to be exceptional boards for surfers of all abilities. Whether you are just taking up surfing or are an advanced surfer looking for greater strength and durability, these boards will give you all you desire. Designed to get onto the wave with ease, be forgiving, and most of all, FUN, these boards offer durable performance and will hold up to the knocks and rocks with little to no maintenance. Following the same wood inspired look of the DRIFTER, the CLASSIC takes on a similar interpretation but with transparent color overlays, a classic blast from the past.

KEY FEATURES

- CARVER: Stability of a longboard with the quick-turning performance of a shortboard
- LONGBOARD: Forgiving traditional style longboard
- NOSERIDER: Traditional style nose rider with spoon concave nose
- BIG BOY: Higher-volume longboard style designed to be a stable platform for newer surfers and performance for heavier riders
- ACE-TEC (AT) CONSTRUCTION
Durable and responsive performance

SIZES

- 7'6" x 21.40" - 51L CARVER (AT) • 108917
- 9'0" x 22.50" - 66L LONGBOARD (AT) • 108959
- 9'4" x 22.80" - 78L NOSE RIDER (AT) • 108919
- 9'6" x 28.00" - 130L BIG BOY (AT) • 108918

FINs

RACE HANDLE REMOVABLE

Padded removable race handle with hardware.
#101954

THULE RACK PADS THULE COMPATIBLE / 24" LONG

Protect your boards on the roof of your vehicle with these high quality, durable rack pads from SIC. Hook-and-loop closure system makes bar installation and removal a breeze. Two high density foam pads feature durable 600D polyester fabric covers that will stand up to years of use.
#101956

RACK PADS STANDARD ROOF RACK PADS / 24" LONG

Protect your boards on the roof of your vehicle with these high quality, durable rack pads from SIC. Fits virtually all factory racks. Premium, all-purpose rack pads for carrying SUPs, surfboards, windsurfers, foils and more.
#101955

STACKER PADS BOARD STACKER PADS / 22" LONG

Protect your boards with these high-quality, durable stacker pads from SIC. These pads offer protection when stacking multiple boards on top of your vehicle. Durable 600D polyester material. No closure system.
#101959

SURF LEASH

9"x7mm #105443 / 8"x7mm #101953 / 6"x7mm #101952
Molded leash, Double swivels, Triple wrap rail saver webbing, Quick release 1 1/2" calf and ankle wrap cuff, Key pocket in cuff.

COIL LEASH

8" x 7mm #101951
Molded coil leash, Double swivels, Triple wrap rail saver webbing, Quick release 1 1/2" calf and ankle wrap cuff, Key pocket in cuff.

HYBRID COIL / STRAIGHT

6" x 7mm -3' + COIL #101950
Molded coil leash, Double swivels, Triple wrap rail saver webbing, Quick release 1 1/2" calf and ankle wrap cuff, Key pocket in cuff.

ECO FRIENDLY MANUFACTURING

ACE-TEC, TOUGH-TEC, and SKIN-TEC products are proudly produced in Vannes (Brittany), France, at the forefront of eco-minded manufacturing.

ACE-TEC and TOUGH-TEC utilize thermo-formed skins, watertight EPS cores, and externally molded inserts. Both technologies use low energy consumption, no pollution, and resource conservation. ACE-TEC cut-off waste during production is recycled back into the process. TOUGH-TEC products can be entirely recycled at the end of their life cycle.

SKIN-TEC is a high-density cellular foam fusion formed and molded in France. The foam slabs come out of the mold in a fully-finished shape, generating no waste during production. Durable, lightweight, water-resistant, and recyclable.

ENVIRONMENTALLY FRIENDLY MANUFACTURING

LOW ENERGY CONSUMPTION

- Short production cycle
- Short Infra-red heating cycle
- Low electricity consumption

NO POLLUTION

- Closed circuit cooling of the mold
- No gas emissions
- No solvents

RESSOURCE CONSERVATION

- Rejection rate (less than 2.5/1000)
- Surplus material systematically recycled
- A capacity per mould 5 times greater than standart techniques

RECYCLABLE PART

- TOUGH-TEC and SKIN-TEC products can be entirely recycled at the end of their life cycle.

TOUGH-TEC (TT) CONSTRUCTION

1. DECK PAD
2. POLYETHYLENE OUTER SHELL
3. MOLDED, WATERTIGHT EPS FOAM CORE
4. POLYETHYLENE OUTER SHELL

MADE IN FRANCE

ACE-TEC (AT) CONSTRUCTION

1. DECK PAD
2. THERMOFORMED PLASTIC SKIN (ASA)
3. 50G/M² FIBERGLASS WRAP
4. 200G/M² WOVEN FIBERGLASS
5. 200G/M² WOVEN FIBERGLASS REINFORCEMENT PATCH IN STANDING AREA
6. 200G/M² WOVEN FIBERGLASS RAIL REINFORCEMENT
7. MOLDED, WATERTIGHT EPS FOAM CORE
8. 200G/M² WOVEN FIBERGLASS
9. 50G/M² FIBERGLASS WRAP
10. THERMOFORMED PLASTIC SKIN (ASA)
